📁 EXPERIENCE

○ FEB 2023 - PRESENT

HERRAMIENTA CLUB

Freelance. Montevideo, Uruguay

Developed a comprehensive web application for Herramienta Club, streamlining cannabis club management with features for order placement, reservation handling, and direct user-admin communication.

Implemented robust Telegram-based secure authentication to ensure user privacy and data protection.

Designed an intuitive administration panel for efficient club operations and oversight.

○ AUG 2024 - PRESENT

VINILERO

Freelance. Rivera, Uruguay

Developed a dynamic web application tailored for vinyl enthusiasts, enabling efficient management and organization of record collections.

Integrated seamless search functionality with the Discogs database to enhance user experience.

Implemented sophisticated features for vinyl investment management and portfolio tracking, fostering a community of collectors through collection sharing capabilities.
